SWITCH

SLIM DESIGN.
POWERFUL PERFORMANCE.

BRC has been a leader in the development of innovative panel systems for over 40 years and are proud to reveal the latest in a long line of performance enhancing office solutions.

Switch is a uniquely sleek panel based product designed to enhance performance and meet the specific needs of today's modern office spaces.

The Canadian manufactured Switch is BRC's slimmest panel offering with electrics and data housed in a 2" thick panel. The line offers an array of features including gallery panels for aesthetically pleasing space division. Switch is a true intersection of design and value.

SWITCH
